# REPORT

OF THE

## Glasgow

### LOCK HOSPITAL,

FROM AUGUST 7, 1805,

(WHEN IT WAS FIRST OPENED),

TO NOVEMBER 11, 1806.

GLASGOW,

PRINTED BY S. HUNTER AND CO. HERALD OFFICE,

1806.

C

28

---

AT a general Meeting of the Contributors and Subscribers to the Lock Hospital, held in the Tontine Tavern, on the 2d day of December, 1806,

JOHN CRAIG, Esq. in the Chair,

The Committee presented a Report of their proceedings since their appointment, together with a plan for the future management of the Institution.

RESOLVED,

1st, That this Meeting fully approves of the Report.

2d, That the Committee be instructed to apply to the Magistrates and Town Council for a Seal of Cause, as recommended in the Report; and as soon after procuring it as may be convenient, to call another Meeting of the Contributors and Subscribers, to elect seven Directors for the ensuing year.

3d, That the thanks of the Meeting be given to WILLIAM DUNLOP, Esq. Surgeon to the Hospital, and to Dr. RICHARD MILLAR, Visiting Physician, for their great exertions in establishing and regulating the Institution, and for their attention to the Patients under their care.

---

---

## REPORT, &c.

---

**I**T is not the intention of the Committee, in this Report, to enter into any detail of the views and purposes for which the Lock Hospital was instituted; to assert the claim its miserable inmates have upon the compassion and generosity of the public; or to defend the propriety of the motives which have led to its establishment.

The following pages are written for the information of the Subscribers to the Charity; to enable them to judge how far their Committee have performed the duties entrusted to them by the general Meeting of the 22d of April, 1805; to lay before them the details of fifteen months' trial; and, guided by this experience, to propose for their consideration a plan of permanent management.

I. The Committee have to state that they have been successful in collecting almost all the contributions and annual subscriptions, for the first year, that are due in Glasgow.—(*v. App. A.*)

II. That they purchased a house in Rottenrow-street, according to the instructions of the general Meeting; that it has been repaired, and, in some instances, altered, so as to answer the purposes of an hospital; that they have been very successful in procuring a great part of the furniture by contribution; and that there has been accommodation for eleven Patients since the month of August, 1805; for the expenditure and receipt of which, *v. App. B. and C.*

III. That the Hospital, since its commencement, in addition to the Medical Attendants, has been under the immediate charge of a person properly qualified to act as Mistress, and of one Servant, to assist her in cooking, washing, waiting on the Patients, and keeping the house in order.

IV. That from the 7th of August, 1805, to the 11th of November, 1806, inclusive, 54 Patients have been admitted, many of them labouring under the severest symptoms of the disease; that 42 have been dismissed cured, 3 dismissed irregular, and that 9 remain in the Hospital.

V. That during that period, the ordinary and extraordinary expences amount to 301l. 16s. 8d.

VI. That they have conferred with the legal advisers of the Magistrates and Town Council; and that they are authorised by them to state, that a Seal of Cause will be granted by the Town, vesting the property of the Lock Hospital in such persons as the Contributors and Subscribers may choose to appoint.

VII. Your Committee are of opinion, that the Contributors and Subscribers should resign the power they at present possess over the Lock Hospital to twelve Directors, chosen annually, in the following manner, who, as a corporate body, are to act under the regulations afterwards laid down.

From the Town Council,	-	-	-	1
Merchants' House,	-	-	-	1
Trades' House,	-	-	-	1
Faculty of Physicians and Surgeons,				2
Contributors and Subscribers,			-	7
				<hr/>
				12

That to these Directors the whole Management of the Hospital be in future entrusted, with full powers to appoint Sub-Committees for facilitating the detail of their duties, and to enact and carry

into execution all rules and regulations for the internal direction of the house.

That a general Meeting of the Subscribers be held annually, on the 3d Monday of November, when the state of the funds and the report of the preceding year shall be laid before them; at which Meeting the seven Directors shall be chosen.

That every Contributor to the extent of five guineas, and every annual Subscriber to the extent of one, who shall have paid for two years, be entitled to vote for the Directors; and that if any of the Public Bodies neglect to appoint a Director, its Preses, or head, shall be entitled, *ex officio*, to act.

That the Directors meet thrice a year, *viz.* on the fourth Monday of November immediately after their election, when they appoint a Surgeon, Consulting Physician, House Surgeon, House Keeper, and such other Assistants or Servants as they may judge necessary; on the second Monday of May, and on the second Monday of November, when they make up their Report, and docquet their accounts, before retiring from office.

That the Directors, at their first Meeting, appoint a Sub-Committee, to assemble at the Hospital on the first Monday of every month, for the

purpose of receiving from the Surgeon the monthly return of Patients admitted or dismissed, of examining into the expenditure, and of regulating the management of the house.

In presenting this Report to the Public, the Committee are aware, that the number of Patients relieved will not be in the expected proportion to the sum expended. They have to attribute this partly to the length of time and expensive treatment which was rendered necessary, from the advanced state of the disease in many of the Patients who were at first recommended to the Hospital, and partly from the whole permanent expence of the establishment bearing proportionably high on the limited number they have hitherto admitted. They are justified, however, in supposing, that these causes will cease, by degrees, to operate; that the rising reputation of the Institution will induce the miserable objects of its charity to apply earlier for assistance; and that the zealous support of the Subscribers will soon enable the Directors to enlarge the number of their Patients. On this point they have little doubt: they have been actively, successfully engaged in the cause of liberal benevolence, and they appeal with confidence to their fellow Citizens.

From the following State of the Funds, the Contributors and Subscribers will perceive, that the Secretary is 36l. 12s. 8d. in advance to the Lock Hospital. Besides this debt, there are outstanding debts, for Furniture, Wine, &c. to the amount of 60l. making in all 96l. 12s. 8d. The Committee, however, have reason to believe, that there are uncollected Subscriptions, in Greenock and elsewhere, which will nearly balance this. In calling again upon the Annual Supporters, they beg leave to state, that although the Subscriptions became due on the 1st of January, 1806, yet, as the house was not opened till the 7th of August, 1805, the second collection is only considered as due on the 1st of November, 1806, and the yearly collection will hereafter take place at that period.
